Daniel's 69 Weeks

Converts to 483 Biblical Years:

$$\begin{array}{r} 69 \text{ weeks} \\ \times 7 \text{ years} \\ \hline 483 \text{ prophetic years} \end{array}$$

Which Equals This Many Days:

$$\begin{array}{r} 483 \text{ prophetic years} \\ \times 360 \text{ days} \\ \hline 173,880 \text{ days} \end{array}$$

Daniel's 69 Weeks = 476 Gregorian Years

$$\frac{173,880 \text{ days}}{365.24219879 \text{ solar days/year}} = 476 \text{ Gregorian years} + 24.717 \text{ days}$$
